**SUBJECT : SECURITY AND SAFETY MEASURES REGARDING NOVEL
CORONAVIRUS (2019-NCOV)**

=====

The Novel Coronavirus (2019-nCov) or Wuhan Coronavirus has raised major health and economic concerns worldwide. The World Health Organization (WHO) and the Department of Health (DOH) are continuously issuing medical updates/bulletin on the matter to inform the general public of the real and current status of the infection to correct inaccurate information so as not to cause panic.

The DOH recommends the following to the general public to reduce the exposure to and transmission of the disease:

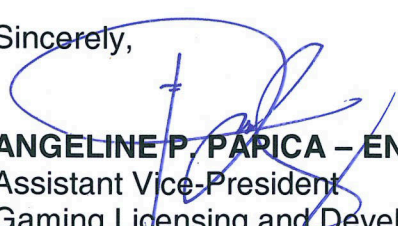

- Practice frequent and proper hand washing.
- When coughing and sneezing, cover mouth and nose with flexed elbow or tissue – throw tissue away immediately and wash hands.
- Avoid close contact with anyone who has fever and cough.
- Avoid touching your eyes, nose or mouth with unwashed hands.
- Ensure that food is well-cooked.
- Maintain a healthy lifestyle to boost immunity.

In line with this, all Operators are encouraged to practice these safety measures or introduce alternate ones such as readily available alcohol/alcohol dispensers in their respective gaming sites in order to prevent further spread of the 2019-nCov.
