ADVISORY NO. 12
Series of 2022

**REQUIRED PROFESSIONAL ACCREDITATION OF FILIPINO ENGINEERS AND
TECHNICIANS WITH THE SAUDI COUNCIL OF ENGINEERS**

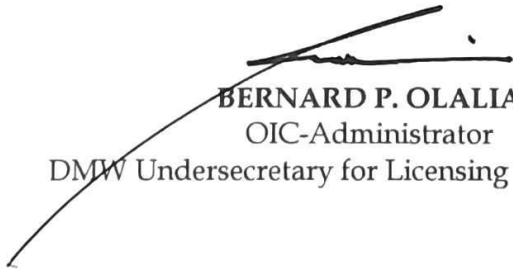

The Royal Embassy of Saudi Arabia in its Memorandum dated 29 September 2022, informs licensed recruitment agencies that engineering professions must obtain professional accreditation with the Saudi Council of Engineers through their platform prior to filing of visa application:

<https://eservices.saudieng.sa/ar/accreditation/Pages/ForeignRegistration.aspx>

All engineers and technicians who practice the profession in the Kingdom of Saudi Arabia must be registered with the Council as provided under Article 27 of their By-Laws.

Since the accreditation and membership with the Saudi Council of Engineers would entail payment of fees, the public in the engineering profession are advised that such costs will form part of the worker's documentation cost and chargeable against the worker.

For information and guidance of all concerned.

BERNARD P. OLALIA
OIC-Administrator

DMW Undersecretary for Licensing and Adjudication
